PROPOSED NORTH WEST ELEVATION - HOUSE REAR FASCADE

NOTES

EN01 | Entrance Composition
Central entrance: six-panel painted timber door with narrow sidelights, on cut ashlar jambs standing on plinth blocks. A deep moulded entablature with projecting cornice sits above, and a semicircular radial fanlight above that, framed by concentric moulded archivolts.

EN02 | Canted Bay Windows
Canted bays flank the entrance, in cut ashlar throughout, with a moulded cornice and blocking course at the head. French doors to the centre face and sashes to the splayed returns, opening onto the terrace.

EN03 | First Floor And Dormers
First floor painted timber sashes in moulded surrounds, with two hipped dormers above within the roof slope.

EN04 | Orangery Link
Orangery between the house and the kitchen building: painted timber, glazed the full height of its bays, under a bespoke glazed lantern, applicant to consider a traditional manufacturer such as Vale Garden House who can provide the level of finish required for such a bespoke painted hardwood orangery structure..

EN05 | Kitchen Building Gable Openings
Kitchen building gable: two tall arched openings with radial fanlights in cut ashlar surrounds. Stone chimney stack against the gable.

ES04 | Ridge Lantern
Low hipped glazed lantern set astride the main ridge at the centre of the house. Frame material and finish to be confirmed before a full application.

FN01 | Walling Stone
Coursed squared natural stone walling to the external walls of the house, the kitchen building and the coach house. Rough faced and laid to courses, with the dressed elements in cut ashlar of the same stone as FN10, FN11 and FN12. Stone type and source to be confirmed before a full application.

FN03 | Roof Covering
Natural stone slate laid to diminishing courses to all pitched roofs. Stone slate type, and whether new or reclaimed, to be confirmed before a full application.

FN04 | Chimney Stack
Natural stone chimney stacks with moulded caps to the house, the kitchen building and the coach house.

FN08 | Oak Weatherboard Cladding
Weathered oak shiplap cladding to the lean-to store, laid horizontally, with vertically boarded and strapped doors. Left untreated to silver naturally. Board profile, lap and fixings to be confirmed before a full application.

FN10 | Ashlar Quoins
Cut ashlar quoins of the same stone as the walling to every external angle of the house, the kitchen building and the coach house. Laid in alternating long and short courses. Finely dressed to contrast with the coursed walling of FN01. Coursing module and margin widths to be confirmed before a full application.

FN11 | Ashlar Plinth
Cut ashlar plinth of the same stone as the walling running continuously around the base of the house, the kitchen building and the coach house, returned at all projections and terminated against the external ground level. Height, projection and weathering detail to be confirmed before a full application.

FN12 | Cut Ashlar Dressings
Cut ashlar dressings of the same stone as the walling to the window and door surrounds, cills, eaves cornice, canted bays, the two entrance compositions and the carriage arch. Finely dressed and moulded where shown. Profiles to be confirmed before a full application.

GN01 | Drawing Scope
Drawings describe the proposed development for planning assessment. They are not construction drawings or a complete Building Regulations specification. Obtain coordinated construction details, structural calculations and Building Control approval before relevant work starts. Refer discrepancies to Noble Architecture before proceeding.

GN02 | Survey And Dimensions
Site information derived from a photogrammetric aerial survey of the holding, with purchased Ordnance Survey data to the site plans. No measured building survey of the existing dwelling has been carried out. Proposed buildings are derived from Noble Architecture's three-dimensional model. Do not scale from these drawings. Verify all dimensions on site.

GN03 | Pre-Application Status
Issued for pre-application advice. Materials, dimensions and levels are indicative at this stage and to be fixed before a planning application.
