NOTES

- SE01 | Existing dwelling**
Existing house occupies the central developed part of the holding. Replacement dwelling proposed in this area; refer to D51 for the proposed layout.
- SE02 | Existing stable building**
Stable building beside the hay barn of SE12. Demolish in full. Proposed studio buildings to SP04.
- SE03 | Existing helicopter hangar**
Detached helicopter hangar at the wooded edge of the developed area. Existing landing strip extends towards the house. Hangar remains shown on the proposed site plan.
- SE04 | Existing landing strip**
Existing paved helicopter landing strip between the hangar and house. Part retention and revised access arrangement proposed; retained extent to be identified on D51.
- SE05 | Existing access roads**
Existing internal roads connect the entrance from Deans Lane with the house, hangar and stable group. Refer to D51 for the revised circulation arrangement.
- SE06 | Existing lake**
Existing lake and island beyond the rear of the house. Lake retained within the proposed landscape setting; distinguish from the smaller front pond whose treatment remains under review.
- SE07 | Existing turbines**
Two existing turbine positions identified on the supplied site markup. Noble Architecture to verify positions and add turbine symbols to the full existing site plan before issue.
- SE08 | Existing internal fences**
Existing internal fencing separates the house and lake, including the sports fence identified for removal. Noble Architecture to identify the removal limits on the proposed site plan before issue.
- SE09 | Existing front pond**
Small existing pond in front of the house, separate from the main lake. Applicant and Noble Architecture to establish its connection to the watercourse before deciding whether to retain, remove or relocate it.
- SE10 | Existing tree lines**
Existing woodland belts and tree lines enclose the developed site. Refer to D51 for local adjustments; individual tree retention and removal to be established through arboricultural assessment.
- SE11 | Existing solar array**
Existing ground-mounted solar PV array beyond the stable group, reached from the internal access road. Array remains shown on the proposed site plan.
- SE12 | Existing hay barn**
Steel-framed hay barn with lean-tos to one side and one end; asbestos roof sheeting throughout. Main barn 8,570 x 12,540 mm; 16,440 mm long including the end lean-to. Demolish in full after an asbestos refurbishment and demolition survey; sheeting removed by a specialist asbestos contractor and disposed of as hazardous waste.
- GN01 | Drawing Scope**
Drawings describe the proposed development for planning assessment. They are not construction drawings or a complete Building Regulations specification. Obtain coordinated construction details, structural calculations and Building Control approval before relevant work starts. Refer discrepancies to Noble Architecture before proceeding.
- GN02 | Survey And Dimensions**
Site information derived from a photogrammetric aerial survey of the holding, with purchased Ordnance Survey data to the site plans. No measured building survey of the existing dwelling has been carried out. Proposed buildings are derived from Noble Architecture's three-dimensional model. Do not scale from these drawings. Verify all dimensions on site.
- GN03 | Pre-Application Status**
Issued for pre-application advice. Materials, dimensions and levels are indicative at this stage and to be fixed before a planning application.
