Proposed North Elevation

Proposed East Elevation

Proposed South Elevation

Proposed West Elevation

NB01 | Purpose of Drawing

This supplementary sheet has been produced strictly to satisfy a direct email request from the Local Planning Authority requesting 2D elevations of all four facades. Please note that the proposed garage is depicted here entirely in isolation to fulfill this specific brief.

NB02 | Refer To Primary Reference Material

All site context, boundary walls, and adjacent landscaping, has been intentionally omitted from this isolated view. For a complete and accurate understanding of the building's massing, site integration, and spatial relationship with the host dwelling and neighbouring properties, the Planning Officer is directed to the fully contextualised elevations on Sheet 02. Furthermore, comprehensive spatial context can be immediately viewed via the architectural 3D renders on Sheet 01 and the fully navigable, to-scale Interactive 3D Model provided via the Project Portal QR code on every sheet.
